December 1, 2005

Guelph, Ontario

**Normiska Corporation resumes trading on the TSX
Ventures Exchange Effective December 2, 2005.**

Normiska Corporation ("Normiska") today announced that the company has received final approval of its acquisition of Normiska U.S.A., Inc. ("Normiska U.S.A.") from the TSX Venture Exchange and that the common shares of the company will resume trading on the TSX Venture Exchange on December 2, 2005.

The acquisition of Normiska U.S.A. was approved at the annual and special meeting of shareholders held on November 17, 2005. Normiska U.S.A. is the owner of The Schundler Company of Metuchen, N.J., a major expander of Vermiculite and Perlite supplying the eastern U.S. Normiska believes that the combined companies will be able to provide better service to markets in northeast North America, including a broader range of products, and greater support to the horticultural, industrial and construction industries.

Peter J. Goodwin, President and CEO, stated that "this marks the end of the process which began almost 8 months ago to combine these companies and create a financially stronger Normiska".

Normiska services the horticulture, construction and general industrial markets with expanded Perlite and Vermiculite products from its facilities in Lachine, Quebec and Metuchen N.J. It also operates a peat bog and processing facility in Fort Frances, Ontario, servicing the upper Midwest with mulches, compost and peat for the horticulture and consumer lawn and garden markets.

The TSX Venture Exchange does not accept responsibility for the adequacy or accuracy of this release.

This press release is not an offer of securities for sale in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended. Securities may not be offered or sold in the United States absent registration or an exemption from registration.
